## Exploring the link between financial and mental wellbeing

Thursday 11th April 2019, 1.00pm - 4.00pm

Foster Denovo, 8 Eastcheap, London, EC3M 1AE

### Why you should attend

More people than ever are struggling with their finances and suffering with some form of financial worry or stress. According to a recent survey, 67% of employees who had financial difficulties reported at least one sign of mental health<sup>1</sup> with 1 in 5 people losing sleep over their finances<sup>2</sup>. So, as an employer, how can you make sure you're supporting your employees' mental and financial wellbeing?

This event offers you the opportunity to network with your peers and gain some practical tips from our speakers on mental and financial wellbeing in the workplace. And, with April being stress awareness month, we are running a special focus on stress in the workplace, as well as:

- how mental and financial wellbeing are linked;
- practical solutions to improving employees' financial and mental wellbeing; and
- interactive workshop and Q & A session where you can discuss your company's challenges and use your learning from the day to make some immediate breakthroughs.
