

Workplace Financial Wellbeing half day conference

Thursday 27th February 2020 - 8.30am - 1.00pm

The Royal Automobile Club, Pall Mall, London

Why you should attend?

46% of people spend more than 4 hours per week at work dealing with their personal finances. This is undoubtedly going to have an impact on your business, through a reduction in productivity and increased employee absenteeism.

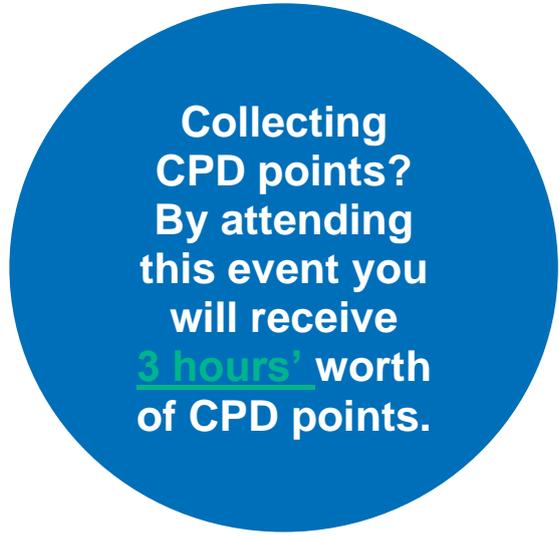

Our event will focus on why employers should be implementing financial wellbeing into their wider wellbeing strategy and how to get started straight away.

The speakers will present the latest research around financial wellbeing, as well as practical tips on introducing financial wellbeing into your organisation. Also, we will be hosting a panel discussion with some of the best experts in the industry.
